DÉLICE

Fruit-forward sweetness

Chips

DESCRIPTION

DÉLICE is designed for rosé wines in the Côtes de Provence style, where roundness and freshness are sought, with stone-fruit notes such as white peach and apricot, and a very light veil of vanilla. This universe is intended for wines that are released early to market: rosés, light and fruity reds (Merlot, Sangiovese...) or early-release wines (crunchy, juicy Syrah or Gamay).

The role of DÉLICE is to mature the fruit and wrap wines that may sometimes lack volume, bringing creamy mid-palate sweetness reminiscent of lees, which imparts the characteristic richness of Provençal rosés. DÉLICE always remains respectful of the fruit, and of the delicate, floral character of these targeted wines.

The DÉLICE universe was designed specifically for use in chip form, suitable for wines intended for rapid consumption.

DOSAGE RECOMMENDATIONS DÉLICE UNIVERSE

		Alcoholic Fermentation	Malolactic Fermentation	Ageing
ROSÉS WINES Provence-style rosé, Corsica, Navarra, La Mancha, Sicily → Cinsault, Grenache, Pinot Noir → fruit-forward profiles	 Chips 2 to 3 months	1.5 to 2g/L or just after AF	1 to 1.5g/L if MLF	1 to 1.5g/L for short aging
RED WINES légers type Valpolicella, Sangiovese, Pinot Noir, Merlot, Gamay	 Chips 2 to 3 months	2 to 4g/L	2 to 3g/L (correction of vegetal notes and added mid-palate volume)	1 to 3g/L for short aging

PACKAGING

CHIPS

2 x 2 x 0.5cm
 28 PE bags per pallet
 Infusion bag
 10kg net

SPECIFIC FEATURES OF “SAVEURS” PRODUCTS

ESSENCES

All references may include the species *Q. petraea*, *Q. robur*, and *Q. alba* (origins: France, Europe, and the USA).

STORAGE

∞ **Non-perishable product:** keep in the original packaging.

After opening: close the packaging tightly.

Storage location: keep in a clean, dry place, protected from moisture and dust.

Do not store directly on the floor: use a pallet or support.

REGULATIONS

Products compliant with current regulations.
